

C#.NET LAB 15: Personal Portfolio

NOTE: Points should be awarded for items that are written correctly in themselves, but don't actually work because other things are broken. There is a total of 10 points available for this lab.

Task: Create a personal website for yourself and to display your projects.

Build Specifications

- **1.5 Point:** Create at least 3 pages: home, about, and portfolio
- **1.5 Point:** Your homepage should include 2-4 sections about you. For example, the first section focuses on blogging, the second focuses on developing, and the third focuses on your hometown.
- **1 Point:** Include a header with navigation as well as a footer for all pages.
- **1 Point:** Include links like LinkedIn and other professional social media.
- **1 Point:** The Portfolio page should include a description and link to projects you want to highlight.
- **1 Point:** Your About page should include your bio and a way for visitors/employers to contact you.

Additional Requirements

- **1 Point:** For answering the Lab Summary while submitting to the LMS.
- **-2 Points:** if there are any syntax errors or if the program does not run (for example, in a Main method).

Extended Exercises (2 points possible from this section)

- **1 Point:** Stick the header to the top of the page so that it always shows when you scroll down the page.
- **1 Point:** Use the Google Maps API to map to your hometown (or to Detroit or to Grand Circus)
- **1 Point:** Learn about GitHub Pages and push there so your site is public.
